

Tibetan Homes School, Mussoorie
Class VIII - Winter Assignment (New Batch) Year 2026

1. MATHEMATICS

• FOLLOWING ARE YOUR TASKS FOR HOLIDAY HOMEWORK. HAVE FUN DOING THEM!

(Do TASK 1, 2 and 3 in your Maths winter notebook)

- Complete the attached worksheet in your maths notebook.
- Learn and write tables from 12 to 20 in your maths notebook.
- Create a poster that showcases how mathematical concepts are used in everyday life.

Choose a common activity, such as cooking, shopping, or traveling, and explain how math concepts are involved in that activity. Use pictures, diagrams, and explanations to illustrate the mathematical concepts.

For example, if you choose cooking, you can include pictures of measuring cups and spoons and explain how fractions and decimals are used to measure ingredients. You can also include a diagram of a recipe that shows how to convert measurements from one unit to another.

2. SOCIAL SCIENCE

Instructions:

- Prepare a **project work of 15 handwritten pages**.
 - **Attach relevant photographs/pictures** related to the topic (printed or neatly pasted).
 - The project must be **neatly written**, well-organised, and properly titled.
 - Use **headings and sub-headings** clearly.
 - Mention **sources/books/websites** used at the end of the project.
 - Submit the project **on time** after the winter vacation.

Project Topic: Study of an Indian State

Write about **your state** (the state you live in) **OR the state you visited during the winter holidays** under the following headings:

I. CULTURE

(Write about any of the following)

- Food
- Festivals
- Language
- Traditional dress
- Customs and traditions

II. HISTORY / FORMATION OF THE STATE

- Important historical background
- How and when the state was formed
- Any significant historical events

III. POLITICS AND RULERS OF THE STATE

- Important rulers or dynasties
- Freedom fighters
- Political leaders (past or present)
- Their contribution to the state or nation

OPTION

If you did **not travel** during the holidays, you may **choose any Indian state** and complete the project using **books, library resources, or reliable online sources**.

3. ENGLISH

1. Write a daily diary entry describing how your day went during the holidays.
2. Read Voice for the Voiceless and write a book review.
3. Write about your experience of visiting any place during the holidays.

4. SCIENCE

PART A: PERIODIC TABLE MEMORY PRACTICE

Daily light work — 10 minutes

- 1) Learn the name, symbol, and atomic number of elements 1 to 40.
- 2) Write them in a table and memorize them during the holiday.

Use any standard periodic table as a reference (NCERT or IUPAC periodic table from the internet).

PART B: PROJECT WORK

Delhi's air quality has been alarmingly bad this winter. Many days, the **Air Quality Index (AQI) stayed above 300**, which falls in the **"very poor" to "severe" categories**, making breathing difficult for residents.

What you must do

1. Title page

“Air Pollution Crisis in Delhi: Causes, Effects, and What We Can Do”

2. Introduction

What air pollution is and why it matters.

3. Recent situation (based on fact)

4. Causes

List and explain **three major causes**,

5. Effects on people and the environment

Write **5–6 lines** about:

- Health effects (cough, breathing trouble)
- Reduced visibility
- Impact on children and the elderly

6. Simple solution ideas

Write **5 things we can do** at home or in school to help reduce pollution.

7. Diagram

Draw a **diagram/chart showing AQI levels** (use simple bars or colours). It could be:

- Green (good air)
- Yellow (moderate)
- Orange (poor)
- Red (very poor)
- Brown (severe)

8. Conclusion

Write **3–4 lines** about what you learned and why clean air matters.

PART C: THINK & WRITE (Short Answers)

Answer each in 5–6 lines:

1. Why do we need clean air?
2. How does winter make air pollution worse?
3. What can students do to help improve air quality?

5. TIBETAN
